Subject: Proposal #2 - N-Central Coast

I would like to emphasize our encouragement (your and our vote for) **Proposal #2** for the North-Central Coast MLPA considerations.

Proposal 2 Maps/Description
http://web.mac.com/bsleeter/Coastside_Docs/Photos.html

Thank you for all the efforts and considerations. We sincerely hope that social-economic considerations remain part of the criteria for proposal selections. Turning the CA coast into a no touch, no take, aquarium with no scientific basis would be a complete travesty, and a betrayal of due process principles.

Both of us are **Lifetime CA Fishing License** holders, helping to support your employment. If we can't fish the coast, then we want a complete refund of our Lifetime Fishing license fees.
